

Dear Sirs,

**SC SUSZI INDUSTRIAL SRL** offers a wide range of equipments used in wind farms:

### SAGE OIL VAC

An extremely efficient and fast system for replacing used wind turbine oil. Certified filtered oil, clean disposal of used oil. A gear oil exchange system that improves turbine gearbox maintenance.

Fast operating system that reduces service time for wind turbine oil change to 1.5 – 2 h.

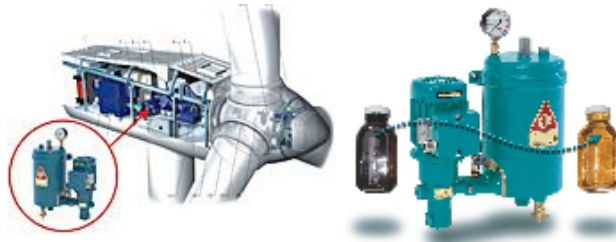

### C.C. JENSEN

Offline oil filtration equipment for wind turbines.

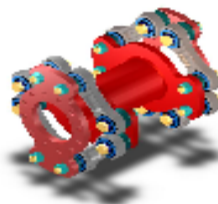

CJC offline oil filtration units assure a clean oil for wind turbines, key factor in providing a long life for wind turbine gearboxes.

### POWER TRANSMISSION SOLUTIONS

Our products include torsionally flexible and torsionally rigid couplings, covering the whole range of power from 300 kW up to 5MW, with our well-known solutions through different product technology: IXIFLEX, COMPOLINK, LAMIDISC

## JAMES WALKER & Co.

Special sealing technology for wind turbines.

Product life extended by using Walkersele high performance sealing technology on main shafts, gearboxes, blade roots and yaw bearings.

Using Walkersele's unique on-site jointing systems, a main rotary seal can be replaced in 1/2 hour, delivering the same integrity as an endless seal.

## BRAKES SYSTEMS

- electro hydraulic drum brakes;
- thrusters;
- hydraulic disc brakes.

## SEIM SCREW PUMPS

- screw pumps;
- coolers for hydraulic oil;
- pressure valves and pressure switches.

## FILTREC Hydraulic Filters

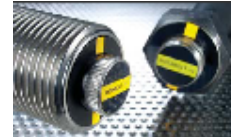

- Spin On Filters
- High Pressure Filters
- Medium Pressure Filters
- Return Filters
- Suction Filters
- Suction And Return Filters screwed in the tank

## JAMES WALKER ROTABOLT

### **James Walker**

The RotaBolt system assures the correct bolt tension and it maintains that tension, for a long period of time, due to its innovative „fit and forget” system; traditional methods are not able to do that.

Our team has the know-how and the ability requested to offer the best solutions for your needs, using the latest technology and manufacturing techniques for solving specific problems.

For a complete offer do not hesitate to contact us.
